

**Manufacturer of
Brass Precision Components**

About Us

We are highly skilled metal components manufacturing company

At Ashutosh Industries, the base of our strength lies in the integrity, transparency, excellence and quality we provide to our customers. Client satisfaction is always our priority which we are able to fulfill with great commitment by understanding their objectives. With sheer dedication, a great team work and the continuous efforts of our R&D team, we have been able to attain the success in the industry. The unmatched quality, reliability of our products and services offered by us meet the satisfaction of our esteemed customers.

We not only believe in producing the products as per our company product range but we also produce products as per customer customization with competitive prices, better quality and on committed delivery time. Our products are highly appreciated for its superior quality and durability. Our products are widely used in numerous applications and cater our best services to many industries.

Industries We Serve

We serves a wide range of industries, We have adapted our services to suit a range of different industries.

Why Choose Us

We believe our core values of innovation, integrity, client satisfaction and intellect differentiate us from others. Our focus is to maintain & developed a measurable client satisfaction.

Modern Technology

Our manufacturing unit is equipped with latest machines and technology to produce zero-defect and high performance Brass Components.

Highly Competitive Price

The best part is we deliver high quality work at very highly competitive prices. Contact us for quotation now.

Timely Delivery

No matter how big or small, our team manage the project and deliver on time, and within budget, every

Quality

Quality Name You Can Trust. Your Satisfaction Is Our Motivation.

Quality Assurance is an integral part of Ashutosh Industries. We ensure that we are able to deliver high quality products to our customers according to their need. All our valued customers have awarded us consistently ensuring the high quality of our products. We have a Dedicated Engineering Department. All our products pass through stringent quality testing procedures and inspections. We have an efficient quality control system in place. Quality control begins by checking raw materials for compliance with specifications.

Our target is to provide zero defects products to client which is remarkable in industry. To meet the global demand we take care at every stage right from raw material purchase to finished goods. Our quality assurance team is trained and well experienced. To achieve the maximum standard our quality control team continuously monitors the products and user requirement right from the production stage up to the final dispatch. Every employee of the company is committed to the pursuit of excellence with continuous improvement of the Quality Management System.

24+ Years of Effective Management

We offer superior & safe products performance. Being the integrity of their mechanical design & the quality of materials used in their production. Quality Planning, Test Equipments, In-Process & Inter-Process Inspections, Equipment Calibration & Maintenance, etc are some of the major part of our quality control program.

Quality Policy

We are responsive for customer needs and provide satisfaction with our sincerity and ceaseless efforts. To become customer centric company we supply quality products at competitive price in given time frame and provide excellent client support.

Instruments

Instruments are heartbeats of industry. To assure good quality of products, quality instruments are required. Company has invested a good amount to have all type of equipments including all instruments and gauges along with the profile projector and other sensitive instruments.

Inspection

Company has unique Inspection facility to achieve the goal to zero defects and rejection of any products manufactured. Well experienced and regularly trained technocrat engineers, carry out the Inspection on each Individual product. Batch Inspection is not permitted in the company.

Packing & Dispatch

We understand that packaging is the most important aspect. After inspection, each order is directed to a particular packing location. The completeness of whole order can be checked here optionally. Then the packing list gets printed and the whole order is packed and dispatched.

Brass Turned Components

We are engaged in offering a wide range of Brass Turned Components to our clients at a reasonable cost. Our turned components are made using quality raw material such as high and fine grade brass to assure quality and reliability. We manufacture all types of Brass turned components depending upon client's requirement for application in any industry. The range of Brass Turned Components find wide application in machine building, automobile, hydraulics and general engineering industry.

Brass Turned Components

We are manufacturing all Kinds of Brass Electrical Components, Brass Electrical Parts and Brass Electrical Fittings like Electrical Plug Pins, Sockets Pins, Brass Neutral Links, Brass Terminal Block, Brass Connectors, Brass Contacts and more. Brass Electrical Components are consumed in various applications like Toggle Switches, Modular Switches, Switchgears, Fuse Switches, Plug Pins & Sockets and many Electrical & Electronics Equipment or Parts. Brass Electrical Components for various industries including Power Generation, Electronic Industry, Solar Energy, Automotive Industry, Medical Industry, Electrical and Engineering Assembly.

Brass Precision Components

We are offering the high-quality collection of Brass Precision Components to our valuable customers. Designed and developed from high-grade materials, the products offered by us are usage in the Connectors, Electrical & Electronics, Instrumentation, Telecommunication, Automotive, Medical & Surgical and Industrial Assemblies. The offered products are available with us at most economical prices within the committed span of time.

Brass Turned Components

We provide High-Quality Brass Fasteners with variety of types. Generally, Fasteners are hardware components that mechanically joins two or more elements together. Brass Fasteners are easily removable without any damages the joining components. They are made from brass, mild steel, stainless steel and other material composition. Brass Fasteners are defined various types such as Screw, Washer, Anchor, Nuts, Rivets, Inserts, Bolts and many more.

Brass Inserts

The wide range of Brass Inserts include threaded molding inserts, ultrasonic molding inserts, knurled molding inserts, molding inserts for plastic, wood molding inserts and more. The range of standard and high quality molding inserts designed to molded into the plastic, wood or any molded components.

Brass Fittings

Brass is widely used in manufacturing brass fittings, plumbing fittings, flare fittings, garden hose fittings, compression fittings, transmission fittings, pipe fittings & threaded fastening, due to its excellent qualities as rust-resistance, hardness, wear-resistance, high tensile strength, durability and flexibility.

Brass Earthing Accessories

Earthing System is very essential to be properly designed & installed to safeguard both lives & the equipment. Sometimes it happens that though the earthing system is installed, current leakage is felt & short circuit may happen. To avoid this a correct Earthing System embracing correct earthing accessories is very important to take care of. Corrosion resistance, conductivity and mechanical strength are essential considerations in earthing accessory design to ensure an earthing system remains operative for many years. Earthing Accessories have high quality copper alloy material which provide wanted strength to the part to ensure its proper mechanism.

Brass Forging Components

We are specialized in Manufacturing of Brass Forging Parts. We can Manufacture any type of Brass Forging Components, Brass Forging Parts, Brass Forging Fittings, Brass Forged and Machined Parts, Brass and Gunmetal Die Casting Components for various industries including Water Valve and Pipe Fittings, Plumbing and Sanitary Fittings, Agricultural Equipment, Automotive Parts, LPG and CNG Valve Fittings, Electrical and Engineering Assembly. We have a Unique Manufacturing Facility to develop Brass Forging Parts as per customer's designs and requirements.

Brass Automobile Components

We are specialized in manufacturing and customizing any kind of automobile parts as per customer requirements and CAD drawings. We are using excellent quality raw materials and advanced technology to ensure the high durability and anti-corrosive property of automobile parts. All our automobile parts are compliance with the international standards and industry norms. Our offered range of automobile parts are widely appreciated by customer in domestic as well as international market for its accurate dimension, precious design, high performance and flawless finish. Automobile Parts are widely used in all kind of vehicles and automobiles as replacement and repairing parts.

Brass Electronic Components

We manufacture and export precisely engineered Brass Electronics Components which are used in different machines and equipment. The wide range of Brass Electronics Components are widely appreciated for their durability and reliability. The range of Brass Electronics Components are manufactured in different standards, grades and finishes. Brass Electronics Components are widely used in different electrical and engineering industries.

Brass Sanitary Parts

The Brass Sanitary Parts manufactured by us are made from quality brass materials which ensure durability and quality. Our wide gamut of Brass Sanitary Spare Parts include Brass Tee, Brass Elbow, Brass Union, Brass Socket, Brass Coupling, Brass Bush, Brass Plug, Brass Stop Plug, Brass Adapters, Brass Couplers, Male/Female Pipe Fittings, Hexagonal Reducing Nipple, Stop Plug, Bush, Male/Female Adaptors, Female Connectors and Hose Joiner.

Brass Hardware Parts

Our extensive experience as manufacturers of building hardware like brass hardware, door hardware, wrought iron hardware and many more coupled with our export capabilities that have been build over the years, we have established ourselves as a major player in the international market. Our company observes high quality production techniques along with a keen aesthetic sense of design, which ensures complete customer satisfaction. Endeavoring to excel in every aspect of the production and servicing, we are expanding our export capacity and constantly upgrading ourselves with the latest technology.

Brass Extrusion Rods

We are manufacturer of brass extrusion rods with wide range of alloy grades and profiled shapes like round, bar, hex and other customized shapes. Our brass extrusion rods size ranges form 4mm diameter to 100mm as per required material grade. All our products are compulsorily passed through spectrometer testing for alloy composition testing and hence we guarantee the material grade composition.

Sheet Metal Components

Sheet Metal / Stamping Parts are used in varieties of applications like riveting, Fitting, Supports, Locking, Fastening & for various uses in electromechanical & Automobile Industries. It comprises a lot of types like Washers, Lugs, Tags, Gaskets, Links, Banana Plugs, Terminals, Tapping Clips, Hinges etc. Apart from Plain Washers, all other varieties are exclusively developed as per custom designs & demands. Sheet Metal Parts generally made from Brass, Copper & Steel which are the universally used in most of the applications. Flat Washer, Star Washer, Teeth Washer, Spring Washer & Split Washers can be made available as per specific requirement.

SS Components

We Manufacture Stainless Steel Turned Components, Stainless Steel Machine Components, Customized Stainless Steel Components, etc. Our products are known in the market for their superior varieties and durability. These are widely appreciated for their sustainability, reliability, and precise designs. We ensure the most reliable products which are available in the best specification at the most profitable price range. Our products use in many industries like Automotive, Material Handling, Textile Industry, Medical and Engineering Sectors.

MS Components

We are specialized in manufacturing of Mild Steel Turned Components. We have strong command in the machining of this material as well as its variant grade like the EN series. While machining we keep our specified tolerance to achieve the final size easily. We work for high precision and accuracy. We are supplying these parts to Electromechanical Industries, Fasteners, Automobile Industries, Electronic and Electrical Fittings. Any kind of Mild Steel Turned Components can be developed and supplied exactly as per customer specifications.
